WALT DISNEY

their father recuperates in the hospital, a victim of their prank with a firecracker. For their film appearance in "Donald's Nephews," the letter was shortened to a postcard and Della's name changed to Dumbella, but the basic explanation remained.

Inspiration for the nephews may have been sown as early as 1932, when Taliaferro inked the first appearance of Morty and Ferdie Fieldmouse in the **Mickey** Sunday page (September 18). Like Huey, Dewey, and Louie, Mickey's nephews were mischief-makers, and from their first meeting with Donald on March 31, 1935, they enjoyed tormenting him. Mrs. Lucy Yarrick, Taliaferro's widow, has confirmed the influence, adding that her husband gave Donald three nephews in hopes of creating even more gags than the mouse twins provided. Further inspiration for the duck triplets came in 1936, when Taliaferro adapted two cartoons for the Sunday pages: "The Further Adventures of the Three Little Pigs" and "The Practical Pig." In both stories, the Big Bad Wolf is abetted by three small but ravenous sons. Taliaferro felt that making the Ducks a family would add domestic complications to the already rich gag possibilities.
